# Professional Support Services

Professional, technical & administrative personnel Recruiting & staffing services Facilities, logistics & other site operations Research & development Laboratory operations & fabrication Engineering/Technicians

# Committed to Quality and Safety

L&M's safety operations at client sites have won *OSHA's Voluntary Protection Program (VPP) Star Status*.

L&M's safety program demonstrates our commitment to the safety of our employees, others in the workplace, and the environment.

L&M was awarded the coveted NASA JSC Super Nova Award for its safety program at Johnson Space Center.

#### Who We Are

L&M Technologies, Inc. is a Hispanic, <u>woman-owned small business</u> founded in 1972 and has been supporting its primary client base in the government sector continuously for 44 years. L&M provides logistics support services, facilities maintenance & operations, and professional, technical and administrative staff support services. Headquartered in Albuquerque, NM, L&M provides its services nationwide from California to Florida.

L&M employs management practices, financial systems, as well as safety and quality programs that are in place and proven over decades of experience. Our management practices are designed to enhance communications and support efficient operations. L&M is experienced with Government and commercial site security requirements. We have performed major contracts with TS clearance requirements. All our employees receive background checks and are trained in L&M ethics, safety, security and quality programs.

# 40+ Years of Demonstrated **Experience**

L&M Technologies, Inc. offers logistics services, facilities operations & maintenance, and technical, professional and administrative support services to government agencies and contractors. We deliver technical expertise, resources, systems, processes, safety and quality programs and management controls for successful performance. L&M is a woman-owned small business and has decades of experience, both as a prime contractor and as a major subcontractor on contracts exceeding \$200M in size and up to 10 years in duration.

L&M provides dedicated and professional on-site staff trained in ethics, security, safety and quality in addition to their specific technical expertise. Through a dedicated management team and web-based communication tools, we ensure frequent, accurate, and open communications with our customers and employees.

### **Our Clients**

Our clients include the National Aeronautics and Space Administration (NASA), the Department of Energy (DOE), the U.S. Air Force (DOD), the General Services Administration (GSA), Lockheed-Martin, Sandia National Laboratory (SNL) and many other major large business government contractors.
